

REQUEST FOR CONTRACTOR PRE-QUALIFICATION

Prequalification applications will be received by Jackson Township, Lebanon County for the UNT to Tulpehocken Creek Bank Stabilization Project until 10:00 a.m. prevailing time on Friday, August 19, 2022.

The objective of the prequalification application process is to identify general contractors who are qualified to provide the goods and services necessary to successfully construct the project. General contractors with experience in constructing stream and/or floodplain restoration projects are invited to complete a Prequalification Application for consideration by the Township. General contractors must be prequalified in order to submit a bid for the project.

Completion of a Prequalification Application will not result in contract award. Instead, the prequalification process will establish a registry of general contractors who will be eligible to submit bids on a future solicitation for the UNT to Tulpehocken Creek Bank Stabilization Project.

Applicants will receive written notice of prequalification status by Friday, September 16, 2022, and a registry of prequalified general contractors will be posted on the same day on the Township's website at <https://www.jacksontownship-pa.gov/>.

The project is located along an unnamed tributary to the Tulpehocken Creek in Jackson Township, Lebanon County, PA. The proposed streambank stabilization begins approximately 50 feet south of West Main Avenue and continues downstream approximately 1,700 linear feet to a point just north of the tributary's confluence to the Tulpehocken Creek. The project will establish a floodplain bench, grade back vertical streambanks, and establish a diverse native plant community to reduce streambank erosion and improve habitat.

The Prequalification Application, and associated instructions, may be downloaded from Jackson Township's website at <https://www.jacksontownship-pa.gov/>.

Jackson Township reserves the unqualified right to reject any non-responsive and/or non-conforming prequalification applications and to waive informalities.

Jackson Township
Thomas M. Houtz
